NAZIS APED INTERNATIONAL BANKERS

I have repeatedly warned over-enthusiasts of the Nazi "monetary" system, with its elimination of the gold standard, that the general condition of the people is not improved thereby. It makes no difference whether the standard value of basic money unit be metal or labor, as long as exploiters run the system the results are equally disastrous upon the economic freedom and equity of the people.

When the Nazis took over the economic structure of Germany and reshaped it to their liking, they copied the exact system of stockholding and all of its abuses as they inherited it from the International Bankers. They even extended it by force, intrigues, robbery and murder. They "bought" into every large corporation or holding by most unscrupulous means and prepared even for the time when their regime would totter, so that they still would "own" the controlling stock in all Europe's industries and extensive landed estates.

Their management, of course, would be an improvement upon previous management and some benefit would accrue from that as well as from the tariff of free trade between states in Europe, but as far as individual enterprise is concerned, the small fellow is as doomed under the Nazi system as he is under Stalin or the monopolistic red tape of the New Deal destruction of the middle class.

GIANT INDUSTRIAL EMPIRE BUILT BY NAZI PARTY

WASHINGTON—Europe under the Nazi heel is described by the office of war information as one giant industrial empire welded together by German interests so strong they could maintain power despite changes in leadership of the reich, the Nazi party or the German army.

Every important industrial enterprise in the occupied lands is now German-dominated, the OWI said in the latest of a series of reports on Nazi economic plundering which followed conquest.

Core of the network is the Hermann Goering works, named for and tied in with the reichmarshal. Intended first as an iron ore development firm, it now has a hand in almost every phase of heavy industry in Europe. This combine seized the Alpine Montan A. G. in Austria, comprising iron interests, machinery, coal, railroads and bridge-building works. In Czecho-Slovakia, the Skoda munitions works was the prize, along with the Waffen Werke A. G., containing aviation and automobile plants. Iron mines and lignite companies in the Sudentenland were grasped by application of the "aryan" laws.

REMINDED OF TIRE INSPECTION DATE

Southland motorists holding "B" gasoline coupon books have until the end of June to complete the second tire inspection of 1943 as required under the nationwide rationing program, advises the Automobile Club of Southern California.

REGIMENTING THE CONGRESS

PM CAMPAIGN TO ELIMINATE NYE, WHEELER, RANKIN, TAFT, FISH, HOFFMAN

The average American does not look far ahead, neither does he prepare to meet the distant future. But the "planners" do. Since the time of the wars of Independence when Amshel Meyer made $2,000,000 profit by supplying the British King with Hessian mercenaries to fight George Washington, this systematic planning has been going on. Wars don't just happen. Wars are a tremendous undertaking. Contrary to propaganda, the average people do not want wars because they must supply the cannon fodder on both sides.

Today few people look into the future and do anything about it. The "peace" arrangements after the war are the goal of the war and to achieve what they want, the planners have to control the congress of the U. S. A.

There are devious ways to get control of the machinery and the officials of government in an administration. One of them is to support those who are easily subservient to the planners and the other is to discredit those who have higher ideals than being stooges. In the last war and peace struggle they were called "die hards", today they are called "isolationists", that means they follow the vision of the Founding Fathers and hold with George Washington's Farewell Address. This has by all means to be branded "subversive, seditionist, traitorous" and to achieve that end the members in both houses of congress have to be linked to "convicted criminals" and the criminals have to be produced and convicted, by all means.

Attorney General Francis Biddle was sounded out in this matter previous to the 1942 election. He had a yen for the presidential candidacy. Otherwise an honest man of strong personal convictions who has reduced witch hunting to 25% of what went on in the previous war, the planners weaved a net in which they caught him. They presented to him a story of certain congressmen and senators being in cahoots with George Sylvester Viereck, the Silver Shirts, Bund, America First Committee and others, to paralyze the U. S. military effort during the war in favor of the Axis. They

The I. G. Farebenindustries dye trust has absorbed "a fabulously wealthy empire in the chemical industry field" extending even into Spain. Outright expropriation, without even a front of legal procedure, OWI said, netted 9000 factories, 60,000 smaller enterprises and 2,000,000 hectares of land in Poland.

NEWSPAPER GUILD SUPPORTS H. BRIDGES

BOSTON— The American Newspaper guild has adopted a resolution reaffirming "its support of the C. O. O. no-strike pledge".

The guild reaffirmed its pledge of support to Harry Bridges, west coast labor leader, in his fight against an order of deportation to his native Australia.

Flag-Salute Law Ruled Invalid

High Court Reverses Upholds 'Witnesses'

WASHINGTON— The supreme court, by a 6-to-3 split, has reversed itself and upheld the right of children of Jehovah's Witnesses to refarin from saluting the American flag at public schools because the salute is contrary to their beliefs.

The court specifically overruled its decision of three years ago, in which it held that children of members of this religious sect could be compelled to salute the flag in public school exercises on penalty of expulsion from school.

Justice Robert H. Jackson, delivering the majority opinion, declared that to compel members of the sect or their children to salute the flag would he to "say that a bill of rights which guards the individual's right to speak his own mind left it open to public authoritities to compel him to utter what is not in his mind."

The court today upheld the same sect in antoher case in which it invalidated a Mississippi statute under which 3 persons had been convicted of sedition for preaching the sect's tnets in the state.

REGIMENTING THE CONGRESS

offered what they called proof, a la Charlie Michelson smear method, and produced their own attorney to "convict the conspirators". Biddle fell for it.

Special Prosecutor William Power Maloney "convicted" Viereck. That "made" him a criminal. In the meantime other individuals throughout the nation were convicted in federal and state courts of seditious activities. The Bund was tied into the "conspiracy" and now the solons were connected up with them. By dragging in a large number of individuals who, politically and on religious grounds, disagreed with those who took oaths of office to gain power of government, merely to break their oaths, the prosecution was enabled to create the impression that all of them were and are conspirators in a plot to betray the U. S. A. to the Axis forces. This was done because the planners intend to terrorize the congress so that whatever peace treaties the planners have up their sleeves would find no effective opposition in the two houses of congress concerning post war planning.

The plot foundered for the 1942 election, but the same plot is being resuscitated for the 1944 election. Congress must be purged of men who dare to think for themselves and are not easy stooges for the self-appointed planners. These men are now branded by PM as "defending" the 33 "'seditionists". The word seditionist is used throughout the whole smear campaign, when in fact the prosecution never dared produce a charge of sedition against the 33 but took refuge to the "conspiracy to commit sedition" charge since it is vague enough to mean anything and does not necessitate specific details in such a charge to hold good for trial. Thus the 33 are charged with "intention" and not with a fact. The prosecution surmises and on such grounds criminal proceedings have been instituted.

The Supreme Court reversed the conviction of Viereck, slapped down Maloney for his shyster tactics, rebuked the court who permitted him to get away with it and now in desperation PM, on behalf of the planners who wish to make sure that their post-war ideas will have no opponents in congress to queer their schemes, is doing everything to smear and frighten senators and congressmen from stepping into the picture & restoring due proces of law into this conspiracy on the part of the planners and the prosecution to dictate to congress, by smearing dissidents.

If one keeps in mind the purpose of PM's smear and terrorist campaign the tactics and the contents of their articles become self-explanatory.

CHARGED WITH SEDITION:
Indicted, De Aryan Snarls: "Bloody Cleanup for U. S."

The above is the headline of the article on PM's edition of June 10, 1943. If you write to Harry C. Holden, P. O. Box 81, Time Square Sta., N. Y. City and enclose 12c in stamps you may get a copy of that issue.

In the first instance it contains the criminal libel, that I am charged with sedition. I am charged with conspiracy to demoralize the armed forces and incite them to sedition. That means I am **supposed** to have INTENDED to use the freedom of the press, NOT TO EXPRESS my honest opinions, but was in cahoots with the Nazis to demoralize the armed forces. Once this thing is settled in the courts PM will have to answer for its libel.

Beneath the headline PM reproduces the top part of the issue of June 24, 1940 of THE BROM, side by side with a good and clear picture of myself as I sat before the Tenney Committee Hearing in San Diego.

The streamliner in THE BROOM reads: **War 'Made in U. S. A.'** —then is followed by: **America Originated Total War**—giving in the text the story by John Lear which was published by the Associated Press, showing that the total war mobilization plans used by Hitler were "borrowed" from the U. S. General Staff.

Remarkable that when the Associated Press makes a disclosure it is "news", when THE BROOM reprints it, it becomes "sedition".

It also shows in that issue of THE BROOM that Booze played a great part in preparing the ground for war and sundry other articles not emphasized by PM. It charges me with being a friend of the Bundists and red-underlines the word **vermin** in reference to THE BROOM. PM claims that I followed the Nazi-Line of propaganda in reproducing the Associated Press story.

Then it presents quotations from THE BROOM, made before and after Pearl Harbor, for comparison. Its contents state that regimentation is regimentation and equally detrimental to human liberty whether initiated by Hitler or Roosevelt. Also a quotation from THE BROOM comparing incidents at the crucifixion with incidents that took place in San Diego.

The foot note states that "De Aryan compares himself to Christ-plus-Socrates, and prints an ugly threat against the U. S." This after Pearl Harbor. And the "threat" follows: "not C. Leon de Aryan who is on the spot (after indictment by the Washington D. C. Grand Jury) but the U. S. A.— He (de Aryan) dishes it out and can take it.

"Can Uncle Sam take it?

"When Greece eliminated Socrates it spelled its own doom. When Jews and Romans cruicifed Jesus they sentenced themselves.

"When one must no longer follow the America First example of Washington without being called a "seditionist" and be legally supressed, then the U. S. A. is in for a bloody clean-up".

The above is called an "ugly threat against the United States". When Jesus was urged by Jerusalem's Temple hierarchy to lead an armed force against Rome and He then warned that "not a stone will remain upon tone" in foreseeing the destruction of the Temple and of erusalem, this, too, was construed as an "ugly threat" by his persecutors. But this warning came to pass. The Jews were defeated and dispersed. They moved in every direction. The largest portion moved north, intermarried with the Mongol tribes and finally settled in what is Poland today.

I was indicted and I took it as part of my contribution to liberty in America. I am not bitter, nor vicious. I can take it. I continue to work for the Four Freedoms here and now. I don't preach violence and bloody revenge. I dont' preach misuse of the legal processes to railroad dissidents. Neither do I take part in any activities inimical to the Republic as conceived and expressed in the writings of the Declaration of Independ-

What Am I Fighting For?

From Marine Corps Chevron

"I am fighting to return to a true Christian American mode of life—physically fit, mentally free and morally sound— with economic security for myself and those I love."

Is "Consent of The Governed" to Survive?

The founders of the United States government felt that all government should rest upon the consent of those who were to be governed. As the people themselves had won the battles of the Revolution the power was theirs by right to decide upon their form of government.

At that time we had along the Atlantic seaboard many wealthy old families holding great tracts of valuable land that had been entailed for many years, and these families as a class quite definitely rejected the ideas of our revolutionary forebears and sided with King George.

Evidence accumulates today that many of these families have never changed their attitude one whit and are still looking longingly toward British titles. As native Americans we must accord them the right to express their opinion but we must still insist upon the right of the American people to decide for themselves whether we will again be made a part of the British Empire.

Of course these people do not put the matter so baldly, but they do very openly propose that the United States and the British empire be united under one flag as a nucleus for a world government. Furthermore they are insistently urging this be accomplished while we are still at war, while our men are fully employed in the effort to win the war, quite evidently fearing the American people will reject the scheme as they did after the last war.

The insistence of these people (who are a very small minority in both major parties) that this be done while our men, the very flower of our young manbood, the best educated, most intellectual of the nation, are engaged in winning the war and for that rea-

THE KINGDOM OF GOD

Do you realize that in the beginning, before there was Creation, and before there was any material world, you and I, were all of us grouped around the Leaders of Creation, the Lords of Creation, as we were discussing our past experiences, from worlds past, just as architects and engineers sit together and exchange ideas and plans for new construction. Before we proceed with new construction we plan and discuss our plans and the one and the other of us advances ideas and warns, from experience and forethought as well as hindsight of what happened in worlds past, not to repeat certain mistakes.

Well, you and I were there, Charley.

That you fail to remember makes no difference. You don't remember the moment of your birth either, but I can tell you, you were born, and if you ask me I will give you a general idea of how it happened.

So I am reminding you of the process of Creation and what preceded Creation. The infinite Father cannot be bothered with doing things for us, so leave Him out of Creation. All the finite worlds are our product. The Father merely gives life to us, His offspring, so we have all the essentials of His nature and can do our own creating of worlds as we wish to fashion them, and everything you see, feel, hear, touch and in any way sense today is our product. Leave God out of it; its our own responsibility and creation.

But there is a point where God counts.

After we all talked things over and decided on a plan for Creation, we dedicated ourselves to God, as His executives. Therefore, we first submitted our plan to Him for aproval. That is, we compared it with the RULE. Oh, yes, there is a standard, a rule by which to measure things and thoughts, and to weigh principles and find out whether they are wanting.

This RULE of God is known as the "Kingdom" of God, because in the days of the ancients the rulers were called kings. The RULE of God applies to all in equal measure. A measure which robs one to give to another violates the RULE of God, it is a bad measure. Equity is the measure of God.

Everything has to be balanced and must balance on its own weight. Each being must create his own sustenance in matter and every relationship must be equitable by which the contracting parties are equitably profited. Such is the RULE of God. Even when baby suckles mother's breast, baby must pay by giving mother delight. There is perfect exchange and balance at all times according to the RULE of God. No such things as something for nothing.

And when and as our plans for Creation comply with the RULE of God, then each one of us is assigned his job and we all went to work and through eons of time and labor produced this material world till finally, even we took on matter and incarnated in the flesh to finish up the job.

Each single cell in our body has a purpose. Together they make a whole. Do you know the purpose of each cell and its function?

In the original plan, before the beginning of the universe, we decided what each cell was for. All we need now is to remember. Vivisection will not bring the memory because it violates the RULE of God. Cruelty to animals and humans does not elevate us to the high state of intelligence native to Creators of a universe. Therefore we'll never discover by violent means what the REAL purpose of each and every cell and organ in the body is. But we will discover it by lovable means, by abstainnig from violence. Hence vegetarianism to refine our senses so the spirit may register memory, and step by step it all comes back as we live to the purpose of our being here.

"Love ye one another, even as I love you", is another reminder of our Leader and Lord of Creation, Jesus of Nazareth. Thereby we learn to understand each other and understanding prevents strife and wars. Wars never produce peace but only more dislocation. The victors become dictators and must be leveled to the ground by the vanquished to establish freedom for the vanquished to live their own lives.

The kingdom of God cannot be taken by force and violence does not establish paradise, health or good will.

"Therefore", I say to you, "seek ye first the RULE of God and its equity and all these things will accrue."

Harold Lavine Quotations

(From PM, June 2, 1943)

"Foul Blows," said Supreme Court of Prosecution

"In fact, Rep. Clare Hoffman (R. Mich.) declared recently on the floor of the House that Stokes and the Justice Dept. had participated in the only conspiracy involved—the indictment of the nightshirt leaders."

As for the indicted 33, "I am driven at moments to feel that the indictment about which we have been reading through these many months is not an indictment of 20 or 30 individuals, but it is an indictment of 75, 80, or 90 per cent of the people of the United States," Hoffman said.

Not only have they attempted to make political capital of the indictments, they have also sought to represent them as politically motivated. In doing so, Gerald P. Nye (R., N. D.) used almost the same words as Hoffman on the floor of the Senate; he might, in fact, have been quoting him. And Nye added:

"They (the indicted seditionists) are no more guilty of conspiracy than I am."

Sen. Burton K. Wheeler (D.,Mont.) also has attacked the indictments on the floor of Congress. Sen. Robert A. Taft (R., O.) attacked them in a letter to Gerald Winrod, one of those under indictment, which the latter subsequently used to raise money for his defense.

FALSE SECURITY

Motorists should not let the fact that there are fewer cars on the streets lull them into a sense of false security, warns the Public Safety Department of the National Automobile Club. Despite mileage rationing and the 35-mile-an-hour speed limit, 27800 persons were killed on our highways and streets during 1942. Motorists are urged to drive safely, walk safely, and obey traffic signals.

HUMANITY

Humanity is a sane minority surrounded by an insane majority. There can be no doubt that, spiritually considered, and taken as a whole, the world must be regarded as a great lunatic asylum. If we reflect upon all that goes on in this world, considering its horrors, cruelties and atrocities, its wrangling and fighting, its social follies and excesses, its vain and puerile pomp and ostention, its industrial and political fraud, its ecclesiastical trivialities, its general self-destructiveness, we can find no other way to explain it.

Call to Action

You should write Hon. Wm. Langer, Senate Office Bldg., Washigton, D. C., for his speech, "A Call to Action", given in the Senate, Mar. 25, 1943. He favors precinct organization now, in every State. This may result in control of one or both old parties.

"Every man a politician"

Mr. Langer wants the common people to control the conventions next year. His idea is for you to sign the pledge, printed at the end of his speech, and get busy. His plan does not mean a new party, necessarily, but new blood in the old parties and new political control.

If you like the plan, write Langer and then get busy organizing your precinct.

ence, the Constitution, the Farewell Address and the teachings of Jefferson. I can take it.

But if the constitutional guarantees are eliminated, if men and women who adhere to the doctrines of the Founding Fathers are "convicted", in the courts of "sedition", what conditions will then prevail? Will not Abraham Lincoln's reminder become fact that the people have the right to change their government, to bring it under their own control, to regain it, by peaceable means, or if needs be by armed force. If Lincoln, too, is a seditionist together with Washington for having written his Farewell Address, then I am in good American company and I certainly don't blush.

In this country we had government by law not by men. This practice did not result in bloody purges after every "election" as in some other countries to the south where the losers were "liquidated" with each change in rulers, Russia for example, and together with the leaders millions of dissidents were murdered.

But once the safeguards of constitutional guarantees are no more, then government by men proceeds in the U. S. as in other countries and what is the inevitable result? These are truths we shall continue to present in public, all of PM terroristic rabble rousing notwithstanding.

PM also quotes from the Broom a comment of ours which we took from LaFollette's PROGRESSIVE concerning the incident at Corregidor when a submarine saved the gold but left the soldiers behind. When LaFollette criticises such incidents it is patriotic, when I do it is "Nazi propaganda".

A short summary of personal history, distorted to fit the purpose, appears in PM's article below my picture and at the foot of it Rep. CLARE E. HOFFMAN, Sen. GERALD NYE, Sen. BURTON K. WHEELER, Rep. HAMILTON FISH are called my defenders.

I have no personal acquaintance with any of the above. I have seen them on public occasions, except Hoffman, whom I have never met. I had a passing glance of Nye. If they are defending me it is news to me. I hope they do. Not because it is me, but because PM and Winchell is attempting to frighten them into surrender of the duties of their offices. They are the last bulwark of constitutional government.

OUR GROUNDHOG WORLD

Agricultural Workers

Agricultural workers for decades have been attracted to our cities for higher wages, always to find that a better standard of living does not necessarily follow. The higher cost of urban living absorbs all the advantages, with the slums and accelerated pace supplanting the equally poor but quiet healthful country life. **Workers in an industrial area cannot improve living conditions where monopoly restricts production, with consequent higher prices.** No degree of industrialization can solve the basic problem of frozen opportunities. **Neither can workers who remain in agriculture improve themselves while valuable unused land is kept out of reach and increased productivity is at the exclusive disposal of land proprieors.—FMF News Letter, Boston.**

"THE ASTORS"

Harvey O'Connor's new book, "The Astors", is "the greatest story of an American robber baron's family ever written". He states further, "In 1936 Lady Astor embraced Hitlerism and blamed the anti-Hitler feeling in America on the Jews". "Wm. Leach, Labor FP, asked Parliament to order the 300 acre Cliveden estate for vegetables, (a war measure). Lady Astor said in reply that the land was not very good, and the flowers raised are donated to hospitals". New York City land also may not be very good for vegetables but the Astor slum rents are understood to be useful enabling Mrs. Astor to distribute charity to the landless British for which they vote her into Parliament, a position from which she can be helpful to Hitler. If Uncle Sam would collect New York and other Land Rents for Revenue and take taxes out of prices, this abominable Astor national scandal would not persist long.

Burma Disaster

"They licked hell out of us but we will go back," is Gen. Stillwell's quoted statement as to Burma. In Britain's Parliament, Lord Wedgewood, (Col. Wedgewood in World War I) ardently urged Britain to free the land to natives of India. A Canadian publication recently commented:

"The Burmese natives have long been dispossessed of their land, and exploited by British and Indian capital on huge plantations. When the Japanese forced the British to withdraw, the news accounts spoke of the Burmese apathy, and even of Burmese attacks on the British and Indians. The resentment of the landless and disinherited natives was apparent.

"The Japanese determined to allow Burma a semi-independent government, putting the previously imprisoned U-Saw at its head, and encouraging the formation of a Burmese army as an ally. Although the Japanese are primarily interested in India, and use Burma as a pawn, still the strategy seems to be fairly successful. **More important,** however, from our point of view, is that **the Japanese have broken up the large plantations and allowed the natives to take possession of the land. Here we have a master stroke."** —Square Deal, Toronto, Canada.

Chief Justice Taft and Sr. Judges Condemn Abuse of Conspiracy Statute

(33 Publishers Indicted Under "Conspiracy")

One of the most vicious laws, or at least vicious in the way it has been abused and mishandled is the Conspiracy Law (Title 18, Section 88). It was strongly denounced in June, 1925, by the Conference of Federal Senior Circuit Judges, presided over by Chief Justice Taft (our former President). In part, they said:

"The conspiracy statute is being much abused . . . We observe so many conspiracy prosecutions that **do not have this substantial base,** that we fear the creation of a general impression, very harmful to law enforcement, that **this method of prosecution is used** arbitrarily and harshly. Further, the **rules of evidence in conspiracy cases make them most difficult to try without prejudice to an innocent** defendant. We think it proper for us to bring this matter to the attention of the District Judges, with the request that they present it to the district attorneys, and for us to bring it also to the attention of the Attorney General."
